

Transformer Switching Relay Appl. 115V or 230V with fast voltage dip protection and soft start transformer Loads

Bridges are drawn in position -230V
Bridges changing
only in voltage less state

2kVA, 230V bzw. 115V

Drawn from M.KONSTANZER	05.04.07	Application 115V or 230V with fast voltage dip protection and softstart for Transformer loads	
EMEKO-ING.BUERO		2 TSRL with Voltage selector
